

Designing the feeling of home.

Warm, considered interiors shaped by light,
material and the rituals of everyday life.

INTERIOR DESIGNER / NOIDA, INDIA

A wider lens on living well.

Nandini Khandelwal is an interior design professional based in Noida, India, developing thoughtful residential spaces through planning, technical drafting and 3D visualisation.

AutoCAD · 3ds Max · SketchUp · Technical
drafting · 3D visualisation

2 BHK Residential Home

A college-assigned residential concept exploring proportion, material direction, lighting and detailed 3D modelling.

ACADEMIC PROJECT — NOT A BUILT CELEBRITY RESIDENCE

RENDERED PROJECT VIEW
IMAGES TO BE ADDED

From plan to presence.

The project brings together planning, elevations and rendered studies to imagine a refined two-bedroom home with a calm, contemporary character.

Material, light, mood.

Spaces, beautifully resolved.

01

Read the space

Understand context, movement, light and the people who will inhabit it.

02

Shape the story

Build a material and spatial language with warmth, rhythm and restraint.

03

Resolve the detail

Carry the idea through drawings, elevations, models and final presentation.

Let's make something lasting.

Available for interior design opportunities,
collaborations and residential projects.
