

SUMMARY

A driven and detail-oriented Interior Design student, completing a Post Graduate Diploma in June 2026, with a strong academic foundation in Urban Planning. Deeply passionate about transforming spaces through thoughtful design, material selection, and hands-on execution – not just screens and software. I bring a rare blend of spatial thinking from urban planning, technical proficiency in AutoCAD, 3ds Max, and SketchUp, and an eagerness to be present on the field, from concept to completion. Fast learner, confident communicator, and someone who truly thrives in dynamic, team-driven environments. Actively seeking an opportunity to contribute, grow, and make every space count.

EDUCATION

University of petroleum and Energy Studies, Dehradun

Bachelor's Degree in Urban Planning
2016 – 2020

AAFT, Noida

Post Graduate Diploma in Interior Design
2025-2026

SKILLS

- AutoCAD
- 3ds Max
- SketchUp

STRENGTH

- Sketching
- Fast Learner
- Strong Communicator
- Confident & Self-driven
- Hands-on & Field Ready
- Collaborative Team Player
- Detail-oriented

TRAINING AND CERTIFICATIONS

- AutoCAD – Technical Drafting
- Interior Design Fundamentals
- 3ds Max Visualization
- SketchUp for Interiors
- Urban Planning Core Modules

PROFESSIONAL EXPERIENCE

Junior Interior Design Intern

Opulent Homes (under Purvi Singhal) | Noida, Uttar Pradesh Sem 1, 2025

Project: Residential Interior Execution & Design Assistance
Description: Assisted in the design and on-site execution of residential interior projects at Opulent Homes, a premium design firm, working directly under my professor's mentorship.

Responsibilities:

- Assisted in preparing AutoCAD drawings including floor plans, section drawings, and furniture layout plans aligned to client briefs.
- Participated in on-site visits to understand the gap between design drawings and real-world execution – something I actively sought out and learned from.
- Coordinated with contractors and vendors to track material procurement, including flooring, wall finishes, and soft furnishings.
- Created 3D visualisations using 3ds Max to present design concepts to clients, incorporating material finishes and lighting scenarios.
- Supported the team in material sample selection, mood board preparation, and client presentation decks.
- Observed and assisted in space planning decisions that required integration of both aesthetic and functional requirements.

PROFESSIONAL EXPERIENCE

My Bachelor's in Urban Planning gives me a unique edge as an interior designer – I understand how spaces exist within larger systems. From land use and zoning frameworks to pedestrian movement and accessibility standards, I approach interiors with a macro-to-micro lens that many designers do not have. This background directly informs my space planning sensibility, my understanding of building regulations, and my ability to communicate with architects and engineers on site.
